## KidzArt IMAGINE and EXPLORE!

KidzArt Artist Luke, age 6

Elementary students are introduced to a personal toolbox of creative skills, learning how to interpret lines, shapes, colors and proportion in their own individual way. As we explore the fascinating world of contemporary and fine art through guided drawings and 2- and 3-dimensional projects, students utilize a variety of high-quality art media and learn how to use the 'language' of art to express their own individual thoughts and ideas. Come explore the world of art with us this year and have FUN the KidzArt way!

## KidzArt DISCOVER and CONNECT!

KidzArt Artist Madison, age 4

The 'language' of art begins with the recognition of lines and shapes. KidzArt's DISCOVER & CONNECT program centers around teaching our preschoolers this new language of art while slowing down, focusing, and 'seeing' how the world around them is put together. They learn how they can create recognizable forms from this 'language' with the right amount of guidance and support. Join us and watch your preschooler's fresh and creative ideas come to life on paper!
